

# SOCIETAL-III

Figure  
10-1

Exploring a fragmented society with some potential pathways linking personal with political synergy

## a) From CITADELS to CIVILIZATIONS

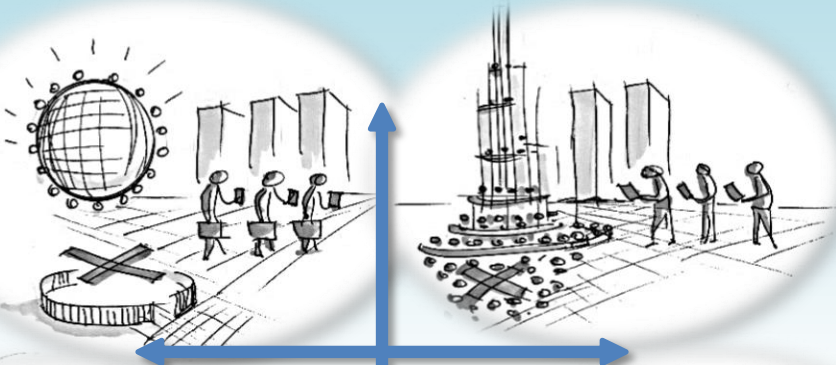

From citadels  
of elitism,  
material greed,  
exclusion &  
wastage...

... to gardens  
of pathways  
for inclusion  
of human  
potential

## b) VARIETIES of SOCIETAL DISCOURSE

### METRO-COSMOPOLISM

Trust in managed markets  
Distrust nationalism & localism  
Culture of rational technocracy  
Justifies policy intervention

### TECHNO-CORPORATISM

Trust in global free markets  
Distrust the poor & outsiders  
Culture of materialism  
Justifies inequality & conflict

### SOCIO-ECO-LOCALISM

Trust in community  
Distrust global corporates  
Culture of the collective  
Justifies enclaves

Distrust western order  
Culture of personal Jihad

'unbelievers'

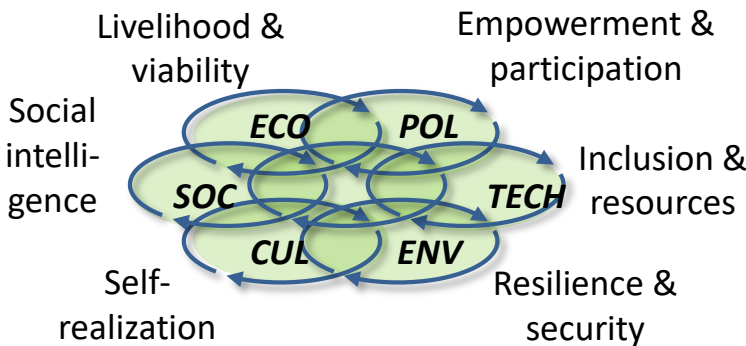

#### (USA drone striker)

Trust in 'God on our side'  
& western world order  
Distrust Islam & others  
Culture of national honour  
Justifies sacrifice of  
'collateral damage'

## c) PERSONAL / SOCIETAL SYNDROMES

## d) PERSONAL / SOCIETAL SYNERGIES

## e) PERSONAL / SOCIETAL PATHWAYS

**Political-economic gaps:** institutions  
of alienation & hierarchy

**Societal-public-value pathways:**  
re-circulating value from all to all

**Eco-cultural gaps:** disruption of  
mental, physical, social health

**Societal-eco-culture pathways:**  
histories / stories / food / places

**Societal-techno-urban gaps:**  
algorithms for oppression & waste

**Societal-platform pathways:** New  
local-global networked intelligence

### KNOWLEDGE FLOWS

Deeper-minds, wider-views, further insights, looking beyond

### THINKING SPACES

Architecture for opening minds, moving hearts, lifting souls

### ACTIVITY FLOWS

- Round tables & resource hubs
- Trends, prospects, outlooks
- Visioning, mind-labs
- Local pathways, strategy, capacity

### HUMAN FLOWS

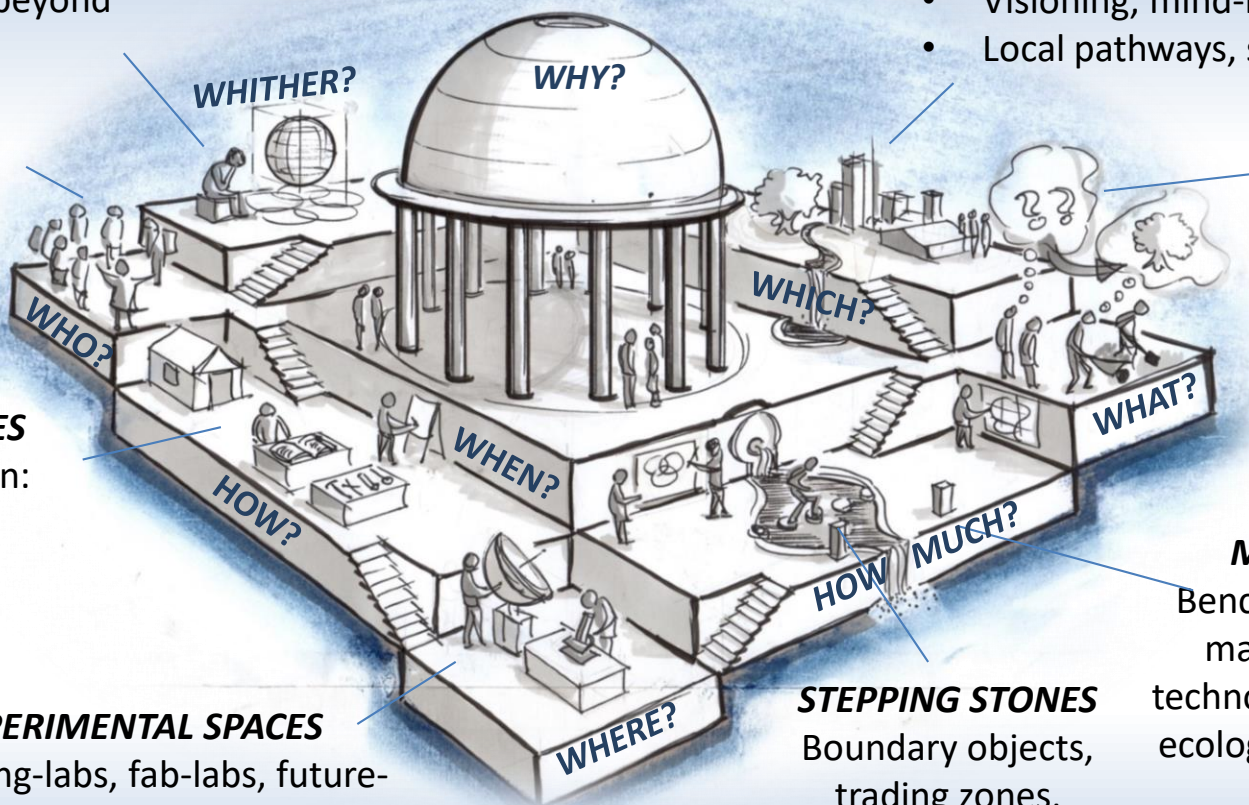

Shared leadership, co-governance, mutual learning, skeptical enquiry

### INNOVATION SPACES

## b) COLLABORATORIUM: STRUCTURE

Outline of synergistic framework & circular process

This 'laboratory for collaboration' is:

- A flexible framework to explore any deeper problem & challenge
- A flexible cycle / process for shorter / longer, local / global enquiry.

A series of Collaboratoriums form a Multi-versity (where everyone learns from & with everyone)

### SYNERGISTIC FRAMEWORK:

**Wider** synergies between actors:

**Further** synergies between factors:

**Deeper** synergies of layers / domains

**Co-evolutionary** collective intelligence

### SYNERGISTIC CIRCULAR PROCESS :
